PROFESSIONAL SUMMARY

Results-driven Software Developer with 1+ year of professional experience designing and delivering scalable full-stack web applications and AI/ML-powered systems. Proficient in MERN stack (MongoDB, Express.js, React.js, Node.js), Python, FastAPI, and Generative AI integration using Large Language Models (LLMs), Retrieval-Augmented Generation (RAG) pipelines, LangChain, OpenAI API, and Google Gemini API. Experienced in cloud deployment (AWS EC2, S3, Docker), RESTful API development, and agile collaboration. Seeking to contribute to high-impact engineering teams at global organizations such as HCL, PwC, and Amazon.

TECHNICAL SKILLS

Programming Languages:	Python, JavaScript (ES6+), TypeScript
AI / ML & Generative AI:	Large Language Models (LLMs), RAG Pipelines, LangChain, OpenAI API (GPT-4/GPT-3.5), Google Gemini API, Prompt Engineering, Hugging Face, PyTorch, Scikit-learn, Machine Learning, Model Evaluation, Feature Engineering, EDA, MCP
Backend Development:	Node.js, Express.js, FastAPI, RESTful API Design, JWT Authentication, Fastify, MVC Architecture, Swagger UI, Razorpay Integration
Frontend Development:	React.js, Next.js, Angular.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Bootstrap
Databases:	MongoDB, MySQL, Mongoose, Database Schema Design
Data & Libraries:	NumPy, Pandas, Matplotlib
Cloud, DevOps & Tools:	AWS (EC2, S3), Docker, Nginx, CI/CD, Git, GitHub, Postman, Vercel, Render, Firebase

WORK EXPERIENCE

Software Engineer

December 2025 – May 2026

Arbutus Infotech Pvt. Ltd., Indore, MP

- Developed and deployed scalable RESTful APIs for WildeCare Nurse Education Web & Mobile App using Node.js, Express.js, and MongoDB on AWS EC2 and S3 with Docker and Nginx.
- Integrated OpenAI API (GPT-4) and Google Gemini API for AI-powered content generation, data extraction, and workflow automation, reducing manual processing time significantly.
- Designed role-based access control (RBAC) for 5 user types (Admin, Sub-Admin, Manager, Preceptor, Nurse) and documented APIs using Fastify and Swagger UI.

Full Stack Developer – Intern

June 2025 – December 2025

JS TechAlliance Consulting Pvt. Ltd., Indore, MP

- Built full-stack web applications using React.js, Angular.js, Node.js, Express.js, and MongoDB with Razorpay payment gateway integration.
- Developed LLM-integrated AI chatbot modules for a telecom platform, improving automated customer interaction and reducing agent workload.

React.js Developer – Intern

January 2025 – May 2025

Annova Solutions Pvt. Ltd., Indore, MP

- Built MERN stack e-commerce application with REST APIs, JWT authentication, cart management, and responsive UI components.
- Collaborated with cross-functional team using Git/GitHub for version control in an agile development environment.

PROJECTS

AI Chatbot – RAG-Based Intelligent Assistant (LLM + OpenAI + Python + FastAPI)

Tech Stack: Python, FastAPI, LangChain, OpenAI API (GPT-4), RAG Pipeline, FAISS Vector Store, MongoDB, React.js

- Architected a production-ready AI chatbot using Retrieval-Augmented Generation (RAG) pipeline with OpenAI GPT-4, LangChain, and FAISS vector store for semantic document search.
- Built secure FastAPI backend with OpenAI API key management, document ingestion, vector embedding, and REST endpoints; integrated React.js frontend for real-time conversational UI.
- Implemented context-aware response generation reducing hallucination and improving answer accuracy using RAG implementation.

WildeCare Nurse Education Web & App (AI-Powered Healthcare Platform)

Tech Stack: Node.js, React.js, MongoDB, OpenAI API, Google Gemini API, Docker, AWS EC2/S3, Nginx, FastAPI

- Delivered AI-powered healthcare education platform with LLM-driven content generation, nurse training modules, and hospital management system.
- Built scalable Node.js microservices, cloud deployment on AWS, and integrated OpenAI/Gemini APIs for intelligent automation.

Telecommunication AI Platform (Conversational AI + LLM)

Tech Stack: Python, FastAPI, Node.js, React.js, MongoDB, LangChain, Razorpay, LLM Integration

- Built AI-powered telecom platform with LLM-based conversational calling bot, intelligent call routing, and automated department-wise agent transfer.
- Developed campaign modules (Easy Dial, DialPro, IVR Assist) with real-time workflows, Razorpay billing, and LLM customer interaction.

MERN Stack E-Commerce Application

Tech Stack: React.js, Node.js, Express.js, MongoDB, Bootstrap, JWT Authentication

- Full-stack e-commerce platform with product catalog, cart, order management, and JWT-based secure authentication.
- Optimized backend performance and built reusable React component library for responsive multi-device UI.

EDUCATION

Master of Computer Applications (MCA)

July 2023 – July 2025

Shri RGP Gujarati Professional Institute, Indore, Madhya Pradesh

Bachelor of Science (B.Sc.) – Computer Science

July 2020 – July 2023

Sainik Group of Institutions, Prayagraj, Uttar Pradesh

LANGUAGES

Hindi (Native / Fluent) | English (Professional Proficiency)
